King of Diamonds
King of Clubs
King of Hearts
King of Spades

Playing Cards Trivia

ANSWERS

1. 12 The King, Queen, and Jack of each suit are counted. Aces don't count as face cards.
2. 2 The Jack of Spades and Jack of Hearts are both facing sideways, and are nicknamed one-eyed jacks since only one eye is visible.
3. King of Diamonds
4. Queen of Hearts
5. He is the only one-eyed King in the deck
6. Jacks The Jacks have yellow hair, while the other two suits have white hair.
7. It is the only Jack with a feather in its cap
8. 42 All face cards have two eyes, save the Jacks of Spades & Hearts, and the King of Diamonds. $2 \times 12 = 24$ then, $24 - 3 = 21$. Each card has two faces, so $21 \times 2 = 42$. Simple, right?
9. Diamonds and Hearts
10. King of Hearts He has one on his sword, and one on his stomach. (He's probably grabbing himself in pain from jamming that sword in his noggin'!)
